

# COMPRESSED AIR & GAS SOLUTIONS

A world class manufacturer of oil-free air and gas compressor technologies, RIX Industries can provide essential military vehicle solutions:

- Central Tire Inflation
- Emergency Breathable Air
- Bouyance Assist – Lift Bag
- Tow Launcher
- Windshield Cleaning
- Ride Height

- Emergency Egress
- Weapon Breech Cleaning
- Chaff – Flare Dispenser
- Cab Pressurization For NBC Protection
- Ramp / Door Assist

## INNOVATION IS OUR TRADITION:

Older than Ford Motor Company, GE, Lockheed Martin, and many other mainstay American corporations, RIX Industries was established in 1878, just 13 years after the Civil War. Since then, RIX compressors and pneumatic technologies have been used in military applications for over 120 years. With a reputation for innovation, reliability, and expertise, our rich history coupled with our engineering expertise and innovation will project us into the future.

# LAND VEHICLE SYSTEMS BUILT FOR TODAY AND THE FUTURE:

RIX Industries can use pneumatic power for a number of vehicle systems to enhance safety, survivability, and mobility with compact, robust, light weight, and maintenance-free designs.

EMERGENCY EGRESS

CENTRAL TIRE INFLATION

RIDE HEIGHT

RAMP / DOOR ASSIST

# UAV LAUNCHING SYSTEM CAPABILITIES:

As the need for small, more expeditionary launching systems increases, RIX Industries provides UAV launching systems with compact, reliable, and cost effective pneumatic compression.

Adjustable and Scalable for Desired Accelerations and End Speed  
Integrated Refilling Station for Multiple Launch Capability
